

Penryn Prep Online
is offering a
**TRIAL PERIOD OF
ONLINE LEARNING**

Penryn Prep Online is proud to offer a trial period of our Online Prep School to any and all scholars who would like to take this opportunity to play, experience and see what our Online Prep School has to offer.

In 2021 Penryn has launched our Prep Online School with a unique blended and proudly South African curriculum. The Curriculum is project and inquiry based and fully subject integrated.

Maths and English will include a self-paced component, whilst all other subjects are fully integrated in 21st century skills development modules. STEAM, robotics and coding are also incorporated into this real-world curriculum which is underpinned by the values, vision and ethos of Penryn.

We invite any Grade 4-7 scholars, who are interested to join our classroom to experiment, think critically, problem solve and have FUN.

Requirements: The scholar will need data or wifi, a device (laptop, PC or tablet) and a spirit of curiosity.

Log in and join us

Tuesday 15 Feb: Orientation

Wednesday 16 -24 February : Participate in our module on THE COST OF PROGRESS

We look forward to having you join us!
